

Dear Mr. Hutchison: (11 March 2020)

Landmark Files Formal Ethics Complaint Against Schumer

Landmark Legal Foundation has asked the Senate Ethics Committee to investigate and sanction Senate Minority Leader Chuck Schumer for his outrageous and deadly serious threats against U.S. Supreme Court justices Neil Gorsuch and Brett Kavanaugh. Read our complaint [here](#).

Since December 2019 I have been certified mailing to you on a weekly basis my request for your response regarding an evidence package that I provided that guaranteed indictment and conviction of **numerous** federal judges for violating 18 USC section 242. I reviewed the legal elements that are associated with section 242 and how they are established beyond a reasonable doubt by the evidence that I provided to you. I explained the complete corruption of judicial oversight by the FBI, DOJ, and the House and Senate. I requested that you use your resources such as Meese or chairman Levin in order to bypass the deep state and bring the evidence to attention of honest lawmakers or honest officials within the FBI/DOJ. You ignored all my requests for a response that related to the removal of judge-criminals before they can do more damage, yet you **immediately address** Schumer's threat (above). I again repeat my request for your reply.
